Hytham H. Fadl, MD

Hytham H. Fadl, MD Hurley Medical Center

"First, do no harm" ~ Hippocrates

1. What are your challenges as a physician?

Advocating for children and making sure I do what is best for each specific child.

2. What keeps you coming back each day?

The joy of seeing children every day is more than enough.

3. What do you believe patients value the most in their physician?

Caring about their families as a unit. Showing genuine interest in their children's health and future as well as being honest about the care that can be provided to their child.

4. Share with us some of your favorite hobbies?

I enjoy both playing soccer and watching soccer star Lionel Messi.

5. Tell us about your family:

My wife Linda is both a homemaker and a part-time pharmacist. I have two sons, Akram (age 5) who is the Alphabet Specialist; and, Jude (3) who is the Fairy Hunter.

ALSO COMING IN 2016 ~

Pain Management & Substance Abuse, Diabetes Care in 2016, Infectious Disease Symposium, Annual Terry Thomas Conference & Ob/Gyn Residency Alumni Event, Adolescent Medicine

CME ON DEMAND IS ALSO AVAILABLE!

Congratulations!

Dr. Mahesh Sharman

Dr. Mahesh Sharman is to be Inducted to Michigan State University – College of Human Medicine (MSU-CHM) Gold Humanism Honor Society

The Gold Humanism Honor Society celebrates patient-centered care by recognizing medical students, residents, and faculty who model “integrity, excellence, compassion, altruism, respect, and empathy.”

Mahesh Sharman, MD, a Hurley pediatrician, was selected to be inducted as a faculty member of the Society. Faculty members are selected primarily based on the nominations and recommendations of medical students. Only two are selected from among hundreds of MSU-CHM faculty members. His selection truly demonstrates that he is a wonderful role model and teacher by example.

Dr. Sharman will be recognized at the Society luncheon to be held on Saturday, June 4, 2016, at the MSU Kellogg Hotel and Conference Center in East Lansing, Michigan.

Dr. Sharman joined Hurley in 1998. He is board certified in Pediatrics, Pediatric Critical Care Medicine, and Hospice and Palliative Medicine. His special interests are hospital medicine and quality assurance. He serves as the Lead Pediatrics Clerkship Director for the seven campuses of MSU College of Human Medicine.

April 2016 Anniversaries

Hurley congratulates the following providers who reached milestone Hurley anniversaries during the month of April:

5 Years

Rashed A Hasan, MD

30 Years

Larry E Fleishmann, MD

Hurley recognizes the dedication and commitment of all doctors.

As a feature in the Physician Connection, Hurley will acknowledge five (5) year anniversaries each month.

Physicians – You are the Patient’s Experience! Voice of the Patient

Dr. Bachuwa

“Dr. Bachuwa and his resident doctors were wonderful, thank you to them.”

“Dr. Rocha was great. He spends time with you and explains what will be happening and makes sure he answers all of your questions.”

“Dr. Rocha was excellent – could not ask for a better doctor...”

“I love Dr. Young!”

“Dr. Moreno and Dr. Cherukuri are wonderful!”

“...Dr. Filos was nice and patient.”

“Dr. Ahmad [OB] is very caring and makes me feel safe and comfortable.”

“Dr. Holmes was wonderful! He was very patient and never rushed me to make decisions. He made me feel safe and I trusted him completely with my baby and body.”

“I was seen by Dr. Andre Porchia and he took the time to listen to my complaints about my symptoms. I have a history of right side kidney stones and he did not just assume that was what the pain was. And in this case it was not a kidney stone. Two thumbs up to Dr. Porchia.”

“Dr. Porchia spoke very easily about what was happening, what I needed to do, and the importance of getting regularly checked by my doctor. I was very pleased with his care.”

“The doctor was compassionate about my need to be educated about wound care as I have very thin skin and I am prone to infection. She reviewed my wound care and gave me supplies to take care of my wound. She asked if I needed any pain killers to make me comfortable.”

Dr. Rocha

Dr. Young

Dr. Moreno

Dr. Cherukuri

Dr. Filos

Dr. Ahmad

Dr. Holmes

Dr. Porchia

Hurley in the News (up until March 15, 2016)

Dr. Young

Hurley Ball

Hurley Medical Center's 35th Annual Benefit Ball on March 5th celebrated the "Emerald City" Wizard of Oz-type experience in downtown Flint, and the amazing clinical ambassador stories of our clinicians who received much of their vital medical education, experience and history here: **Dr. Larry Young, Dr. Brian Nolan, Dr. Khalid Ahmed**, John Stewart, RN, BSN, MSA Emergent Services Administrator and Keisha Gates, BSN RN, BC, ANM, GRN, Assistant Nurse Manager, 7 East. During the Hurley press conference promoting the Ball, we received media coverage from abc12 and nbc25. The night of the Ball, On the Town Magazine and My city Magazine covered the event.

Dr. Nolan

The new Hurley Education Center comprises a 6,800 square foot space, which will integrate medical education for Hurley doctors, residents, nurses and staff, as well as allied health occupations and providers in the community who rely on Hurley for training and experience. The new state of the art center will feature upgraded technology to meet the demands of the 21st Century, and will be Wi-Fi compatible, offering the most modern audio-visual and other technical equipment. This new addition will strengthen our connection to our partners across the community, state and the nation through webinars, conference live-streaming, teleconferencing and other means.

Dr. K. Ahmed

Inside the new Center, Hurley Medical Center will host educational training programs and seminars including our continuous Hurley Healthy Living Series, along with the promotion of Level I Trauma, Bariatric, Diabetes, Joint Replacement, Wellness Services, Hernia Center of Excellence, and Senior Center of Excellence to name just a few. This new initiative will help Hurley Medical Center increase our dedication to education, quality and innovation, as we continue to grow our connections within our local community.

Hurley Outreach Lab Services

In an effort to continue Hurley's vision to transform health and increase patient access to services, the outreach laboratory has expanded its phlebotomy services. Home draw services is now available to ALL patients. We recognize the hardship for parents of young children and the elderly to schedule time and transportation to draw stations and physician offices. Our mobile phlebotomy will contact the patient and schedule a convenient time for a home draw. If the patient is mobile and prefers to go to a draw station, our team will help the patient find the most convenient facility.

Some other benefits that have not changed:

- Patients in nursing and assisted living homes will be drawn early in the morning, so their schedules are not disturbed.
- Results are timely and sent to the facilities.
- All requests are scheduled within a week of being ordered.
- This service is offered at no additional cost to the patient.

For additional information, please contact the Mobile Phlebotomy Team at 810-262-4754

HMC Quality & Safety...

Dr. Mikhail

Hurley Medical Center has on average four (4) surgical site infections every 6 months. Our goal is "Zero" infections.

Our BCBS Michigan Surgical Quality Collaborative physician champion, Dr. Raouf Mikhail, is leading key performance improvement initiatives that are focused on decreasing the number of colon surgical site infections.

To help reduce our number of surgical site infections we are taking the following steps:

- Ordering surgical preps (e.g. mechanical bowel prep, skin prep, IV antibiotics).
- Administering antibiotics ½ hour to 1 hour before incision time.
- Communication is key! It is important that the medication reaches the tissue before the incision is made!

Reducing the development of hospital acquired infections is an institution-wide quality and patient safety initiative at Hurley Medical Center.
